

# Breaking Personal & Generational Bondages

Are the crosses in our lives from God? How do we know? The conference teachings will help us discern. Are we helpless in the face of personal and generational bondages?

Could the bondages on us be generational? What signs do we look for? The conferences prepare us to learn about the open doors to personal and generational bondage, how to close the doors to bondage, and open the doors to receive healing through faith in Jesus Christ. Three basic principles are involved.

## FAMILY HEALING CONFERENCE

Christians are called together with Jesus to fight spiritual battles. We cannot do this without self-knowledge. This conference offers principles for daily discernment of spirits and spiritual warfare. Learn to recognize the tactics of the devil and the weapons needed to fight him.

Pope Leo XIII said that Catholics are born for combat. Are you ready for this combat? Are you open to receive the freedom Jesus offers us.

Jesus was anointed by the Holy Spirit to set captives free; to restore sight to the blind; to proclaim the Good News of God's Kingdom here and now; to heal the sick and raise the dead; and to bring to freedom the oppressed. He went about doing good and reconciling sinners to the Father. He came that we might have life in abundance. These conferences will help us on our journey to encounter Jesus.

Come and learn more!

Contemplation means to slow down and pay attention to God Who speaks in the secret of our hearts. Silence and solitude deepen contemplation in us; it is also our weapon against evil. We will be introduced to contemplative prayer, and how to uproot sin in our lives.

To love, serve and adore Jesus our Savior, we must know His identity and mission. Our goal and focus in the Family Healing Conferences is JESUS CHRIST.

Catholics must rediscover the supreme value of Eucharistic Spirituality; with its rich, sweet and fruitful Marian flavor.
